

TPR9003

13 gauge, polyester shell
Black Sandy Nitrile coating on palm
Reinforcement between thumb and index
Padded palm
Hook&Loopwrist

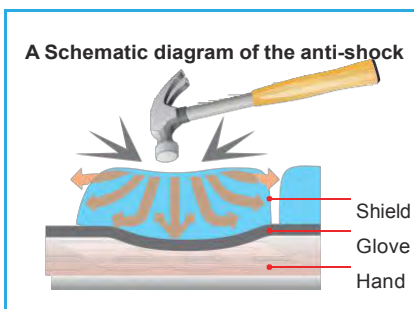

FEATURES:

- Polyester shell feels lexible and comfortable
- Sandy nitrile dipping provides superior grip while working under oily and wet condition
- TPR pad helps prevent inger pinching, abrasions and crushing injuries
- Shock and vibration resistant padded palm
- Reinforced thumb crotch strengthens critical wear point and extends service life
- Hook and loop wrist closure ensures a snug fit

APPLICATION:

- Gas & Oil industry
- Offshore exploration
- Rescue work
- Heavy duty impact
- Construction
- Metal fabrication
- Mechanical workshop
- Automobile
- Hand and power tool usage
- Small to medium scale metal stamping

- Packaging:12/120
- Size:7-11

Cat.II

TPR9004

Cut Resistant Level 5

10 gauge, HPPE shell

Black Sandy Nitrile coating on palm

Reinforcement between thumb and index

Hook&Loop wrist

FEATURES:

- HPPE shell provides excellent cut protection, cut resistant level 5
- Sandy nitrile dipping on the palm provides oil resistance and gripping power under wet condition
- Separate TPR pads on glove back and ingers to shield impacts to the back of the hand and ingers and make more lexible and comfortable
- Reinforced thumb crotch provides dependable protection

- Packaging:12/120
- Size:7-11

APPLICATION:

- Gas & Oil industry
- Offshore exploration
- Rescure work
- Heavy duty impact
- Construction
- Metal fabrication
- Mechanical workshop
- Automobile
- Hand and power tool usage
- Small to medium scale metal stamping

TPR9011

Cut Resistant Level 5

13 gauge, PE/Nylon shell

Black Sandy Nitrile coating on palm

Reinforcement between thumb and index

FEATURES:

- Nylon shell feels lexible and comfortable, provide excellent cut protection
- Sandy nitrile dipping provides superior grip while working under oily and wet condition
- TPR pad helps prevent inger pinching, abrasions and crushing injuries
- Reinforced thumb crotch strengthens critical wear point and extends service life

- Packaging:12/120
- Size:7-11

APPLICATION:

- Gas & Oil industry
- Offshore exploration
- Rescure work
- Heavy duty impact
- Construction
- Metal fabrication
- Mechanical workshop
- Automobile
- Hand and power tool usage
- Small to medium scale metal stamping

TPR9025

10 Gauge, acrylic shell

Blue Sandy latex coating on palm and thumb

Reinforcement between thumb and index

FEATURES:

- Brushed inside keeps warm
- Sandy latex dipping provides superior grip while working under oily and wet condition
- TPR pad helps prevent inger pinching, abrasions and crushing injuries
- Reinforced thumb crotch strengthens critical wear point and extends service life

- Packaging:12/120
- Size:7-11

APPLICATION:

- Gas & Oil industry
- Offshore exploration
- Rescure work
- Heavy duty impact
- Construction
- Metal fabrication
- Mechanical workshop
- Automobile
- Hand and power tool usage
- Small to medium scale metal stamping

TPR9028

Cut Resistant Level 5

13 gauge, HPPE shell
Blue Nitrile fully coating
Black Sandy Nitrile coating on palm

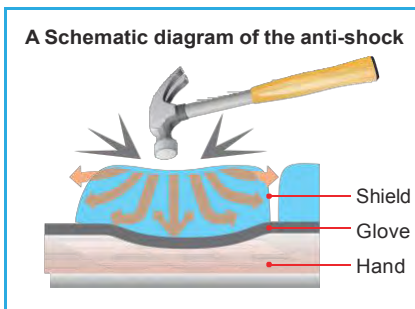

FEATURES:

- HPPE shell provides excellent cut protection, cut resistant level 5
- Fully nitrile dipping against liquids, oil and solvent, palm sandy nitrile dipping ensures a solid, secure grip in wet or dry applications and provide excellent abrasion resistance
- TPR design covered on every essential back corner provides high impact protection

APPLICATION:

- Gas & Oil industry
- Offshore exploration
- Rescue work
- Heavy duty impact
- Construction
- Metal fabrication
- Mechanical workshop
- Automobile
- Hand and power tool usage

- Packaging:12/120
- Size:7-11

Cat.I

TPR9022

Cut Resistant Level 4

18 gauge, HPPE shell
 Black Sandy Nitrile coating on palm
 Reinforcement between thumb and index

FEATURES:

- 1) A Form-fitting stretch seamless shell is combined with an extended slip on cuff for comfort and breathability.
- 2) Sandy nitrile dipping on the palm provides oil resistance and gripping power under wet condition
- 3) Light,flexible Thermal Plastic Rubber creates an exoskeleton protecting your ingers,knuckles and metacarpals from common impact and abrasion injuries

APPLICATION:

- 4) Gas & Oil industry
- 5) Offshore exploration
- 6) Rescure work
- 7) Heavy duty impact
- 8) Construction
- 9) Metal fabrication
- 10) Mechanical workshop
- 11) Automobile
- 12) Hand and power tool usage

- 13) Packaging:12/120
- 14) Size:7-11

Cat.I

TPR9023

ANSI Cut Resistant Level 5

13 gauge, HPPE shell
 Black Sandy Nitrile coating on palm
 Reinforcement between thumb and index

FEATURES:

- Excellent cut protection, ANSI cut resistant level 5
- Sandy nitrile dipping on the palm provides oil resistance and gripping power under wet condition
- Separate TPR pads on glove back and ingers to shield impacts to the back of the hand and ingers and make more lexible and comfortable
- Reinforced thumb crotch provides dependable protection

APPLICATION:

- Gas & Oil industry
- Offshore exploration
- Rescure work
- Heavy duty impact
- Construction
- Metal fabrication
- Mechanical workshop
- Automobile
- Hand and power tool usage
- Small to medium scale metal stamping

- Packaging:12/120
- Size:7-11

Cat.I

TPR9024

Cut Resistant Level 3

10 gauge, DuPont™ Kevlar® yarn knitted shell
 Anti flame TPR on back
 Reinforcement between thumb and index

FEATURES:

- Fire and cut protection
- TPR pad helps prevent inger pinching, abrasions and crushing injuries

- Packaging:12/120
- Size:7-11

APPLICATION:

- Gas & Oil industry
- Offshore exploration
- Rescure work
- Heavy duty impact
- Construction
- Metal fabrication
- Mechanical workshop
- Automobile
- Hand and power tool usage
- Fire protection
- Small to medium scale metal stamping
